In Germany, Otfried H&offe has been a leading contributor to debates in moral, legal, political, and social philosophy for close to three decades. H&offe's work (like that of his contemporary, J&ürgen Habermas), brings into relief the relevance of these German discussions to their counterparts in English-language circles. In this book, originally published in Germany in 1990 and expanded since, H&offe proposes an extended and original interpretation of Kant&, philosophy of law, and social morality. H&offe articulates his reading of Kant in the context of an account of modernity as a &"polyphonous project,&" in which the dominant themes of pluralism and empiricism are countered by the theme of categorically binding moral principles, such as human rights. Paying equal attention to the nuances of Kant's texts and the character of the philosophical issues in their own right, H&offe ends up with a Kantianism that requires, rather than precludes, a moral anthropology and that questions the fashionable juxtaposition of Kant and Aristotle as exemplars of incompatible approaches to ethical and political thought.

The interplay between peace and justice plays an important role in any contemporary conflict. Peace can be described in a variety ways, as being 'negative' or 'positive', 'liberal' or 'democratic'. But what is it that makes a peace just? This book draws together leading scholars to study this concept of a 'just peace', analysing different elements of the transition from conflict to peace. The volume covers six core themes: conceptual approaches towards just peace, macro-principles, the nexus to security and stability, protection of persons and

public goods, rule of law, and economic reform and accountability. Contributions engage with understudied issues, such as the pros and cons of robust UN mandates, the link between environmental protection and indigenous peoples, the treatment of illegal settlements, the feasibility of vetting practices, and the protection of labour rights in post-conflict economies. Overall, the book puts forward a case that just peace requires not only negotiation, agreement, and compromise, but contextual understandings of law, multiple dimensions of justice, and strategies of prevention.
