MasteringGeography® The Mastering platform is the most effective and widely used tutorial, homework and assessment system for the sciences, and is now available in geography. MasteringGeography helps instructors maximize class time with customizable, easy-to-assign, and automatically graded assessments that motivate students to learn outside of class and arrive prepared for lecture. These assessments can easily be customized and personalized for an instructor's individual teaching style. The powerful gradebook provides unique insight into student and class performance even before the first test. As a result, instructors can spend class time where students need it most. The Mastering system empowers students to take charge of their learning through activities aimed at different learning styles, and engages them in learning science through practice and step-by-step guidance. MasteringGeography offers: Assignable activities that include Geoscience Animation activities, Encounter Physical Geography Google Earth® Explorations, Geography Video activities, MapMaster® interactive map activities, Map Projection activities, coaching activities on the toughest topics in physical geography, end-of-chapter questions and exercises, reading questions, and Test Bank questions. Student study resources in the Study Area include Geoscience Animations, web links, videos, glossary flashcards, In the News® RSS feeds, MapMaster® interactive maps, chapter quizzes, an optional Pearson eText, including iPad and Android versions, and more.

The second edition of Bruce Gervais' Living Physical Geography offers a fresh approach to the study of physical geography, combining print and digital media to create a scientifically substantive work that is written for students. Living Physical Geography focuses on human-physical geography interactions, using pedagogical features in the textbook and online in SaplingPlus to create a modern synthesis of the science of physical geography. In this, the most student-friendly book in the market, the authors Bruce Gervais has curated and designed all of the learning assets within the text and online in SaplingPlus. Each of the four major parts in Living Physical Geography focuses on energy flows within Earth's physical systems. Additionally, landscape analysis underpins the body of the text. Step-by-step examples are used to illustrate how landforms and systems develop, evolve, and change through time.

PLEASE PROVIDE COURSE INFORMATION Ideal for use with any text on Physical Geography, this laboratory manual contains step-by-step exercises that help students apply essential geographic principles, methods, and tools to better understand Earth and its systems. Organization of each lab exercise chapter entails an introduction, key terms and concepts listing, objectives of the chapter, and a listing of materials and sources needed to complete the exercises. The initial laboratory exercise is called the Prologue Lab and is unique to this manual. The assignments in the Prologue are meant to span the entire term and will provide students with the tools of spatial analysis that are at the core of geography.
