In this haunting tale of love and learning, the existential chaos of a life ravaged by circumstance takes on a rhythm of its own, one bound by loss and loneliness, but also an intelligent awareness of self. Sometimes melancholy, sometimes brutal, occasionally funny and infuriating, a journalist-comrade-lover caught up in the shade and shadow of politics and social injustice faces treachery and betrayal on every level. Set against the backdrop of a cityscape that taunts and tantalises, this is where love fails and passion wanes, "where suffering has no meaning", where an individual escapes death only to find himself confronted with choices wrought by remorse and retribution, by conscience and character. And yet, with all trauma, there is a distinct musicality to the lyrical unpacking that follows a string of small things ...

This collection presents new investigations into the role of heritage languages and the correlation between culture and language from a pedagogic and cosmopolitical point of view.

In many democracies, voter turnout is low and getting lower. If the people choose not to govern themselves, should they be forced to do so? For Jason Brennan, compulsory voting is unjust and a petty violation of citizens' liberty. The median non-voter is less informed and rational, as well as more biased, than the median voter. According to Lisa Hill, compulsory voting is a reasonable imposition on personal liberty. Hill points to the discernible benefits of compulsory voting and argues that high turnout elections are more democratically legitimate. The authors - both well-known for their work on voting and civic engagement - debate questions such as: • Do citizens have a duty to vote, and is it an enforceable duty? • Does compulsory voting violate citizens' liberty? If so, is this sufficient grounds to oppose it? Or is it a justifiable violation? Might it instead promote liberty on the whole? • Is low turnout a problem or a blessing?

Straightforward, affordable, and practical, Improving Adolescent Literacy gives all middle and secondary school teachers instructional routines that will allow them to develop the content literacy skills of their students. Chapter-opening vignettes from actual classrooms show readers effective teaching in action and give them a look at how the chapter's instructional approach works within content area teaching. Research-based rationales for each strategy follow the vignettes and provide an in-depth look at how to implement the strategy, along with examples of each strategy across the curriculum. In this 5th Edition, the authors provide new classroom examples from their colleagues across the disciplines as well as new instructional routines that have been researched and validated since the publication of the last edition. Also, this edition has been re-organized, adding three new chapters, to focus on the ways in which teachers can use reading, writing, speaking, and listening in their classes, emphasizing reading and comprehending texts, creating graphic organizers, developing vocabulary knowledge, and writing to learn.

Although the Common Core and C3 Framework highlight literacy and inquiry as central goals for social studies, they do not offer guidelines, assessments, or curriculum resources. This practical guide presents six research-tested historical investigations along with all corresponding teaching materials and tools that have improved the historical thinking and argumentative writing of academically diverse students. Each investigation integrates reading, analysis, planning, composing, and reflection into a writing process that results in an argumentative history essay. Primary sources have been modified to allow struggling readers access to the material. Web links to original unmodified primary sources are also provided, along with other sources to extend investigations. The authors include sample student essays from each investigation to illustrate the progress of two different learners and explain how to support students' development. Each chapter includes these helpful sections: Historical Background. Literacy Practices Students Will Learn, How to Teach This Investigation. How Might Students Respond? Student Writing and Teacher Feedback, Lesson Plans and Materials. Book Features: Integrates literacy and inquiry with core U.S. history topics. Emphasizes argumentative writing, a key requirement of the Common Core. Offers explicit guidance for instruction with classroom-ready materials. Provides primary sources for differentiated instruction. Explains a curriculum appropriate for students who struggle with reading, as well as more advanced readers. Models how to transition over time from more explicit instruction to teacher coaching and greater student independence. " The tools this book provides—from graphic organizers, to lesson plans, to the accompanying documents—demystify the writing process and offer a sequenced path toward attaining proficiency. " —From the Foreword by Sam Wineburg, co-author of Reading Like a Historian " Assuming literate practice to be at the core of history learning and historical practice, the authors provide actual units of history instruction that can be immediately applied to classroom teaching. These units make visible how a cognitive apprenticeship approach enhances history and historical literacy learning and ensure a supported transition to teaching history in accordance with Common Core State Standards. " —Elizabeth Mojs, Arthur F. Thurnau Professor, School of Education, University of Michigan " The C3 Framework for Social Studies State Standards and the Common Core State Standards challenge students to investigate complex ideas, think critically, and apply knowledge in real world settings. This extraordinary book provides tried-and-true practical tools and step-by-step directions for social studies to meet these goals and prepare students for college, career, and civic life in the 21st century. " —Michelle M. Herczog, president, National Council for the Social Studies
