NEW YORK TIMES BESTSELLER • From the longtime CEO and chairman of Starbucks, a bold, dramatic work about the new responsibilities that leaders, businesses, and citizens share in American society today—as viewed through the intimate lens of one man's life and work. What do we owe one another? How do we channel our drive, ingenuity, even our pain, into something more meaningful than individual success? And what is our duty in the places where we live, work, and play? These questions are at the heart of the American journey. They are also ones that Howard Schultz has grappled with personally since growing up in the Brooklyn housing projects and while building Starbucks from eleven stores into one of the world's most iconic brands. In From the Ground Up, Schultz looks for answers in two interwoven narratives. One story shows how his conflicted boyhood—including experiences he has never before revealed—motivated Schultz to become the first in his family to graduate from college, then to build the kind of company his father, a working-class laborer, never had a chance to work for: a business that tries to balance profit and human dignity. A parallel story offers a behind-the-scenes look at Schultz's unconventional efforts to challenge old notions about the role of business in society. From health insurance and free college tuition for part-time baristas to controversial initiatives about race and refugees, Schultz and his team tackled societal issues with the same creativity and rigor they applied to changing how the world consumes coffee. Throughout the book, Schultz introduces a cross-section of Americans transforming common struggles into shared successes. In these pages, lost youth find first jobs, aspiring college students overcome the yoke of debt, post-9/11 warriors replace lost limbs with indomitable spirit, former coal miners and opioid addicts pave fresh paths, entrepreneurs jump-start dreams, and better angels emerge from all corners of the country. From the Ground Up is part candid memoir, part uplifting blueprint of mutual responsibility, and part proof that ordinary people can do extraordinary things. At its heart, it's an optimistic, inspiring account of what happens when we stand up, speak out, and come together for purposes bigger than ourselves. Here is a new vision of what can be when we try our best to lead lives through the lens of humanity. "Howard Schultz's story is a clear reminder that success is not achieved through individual determination alone, but through partnership and community. Howard's commitment to both have helped him build one of the world's most recognized brands. It will be exciting to see what he accomplishes next."—Bill Gates

Michael Goldhaber, writing in Wired, said, "If there is nothing very special about your work, no matter how hard you apply yourself you won't get noticed and that increasingly means you won't get paid much either. In times past you could be obscure yet secure -- now that's much harder." Again: the white collar job as now configured is doomed. Soon. ("Downsizing" in the nineties will look like small change.) So what's the trick? There's only one: distinction. Or as we call it, turning yourself into a brand? . . . Brand You. A brand is nothing more than a sign of distinction. Right? Nike. Starbucks. Martha Stewart. The point (again): that's not the way we've thought about white collar workers--ourselves--over the past century. The "bureaucrat" on the finance staff is de facto faceless, plugging away, passing papers. But now, in our view, she is born again, transformed from bureaucrat to the new star. She works in a professional service firm and works on projects that she'll be able to brag about years from now. I call her/him the New American Professional. CEO of Me Inc. (even if Me Inc. is currently on someone's payroll) and, of course, of Brand You. Step #1 in the model was the organization . . . a department turned into PSF 1.0. Step #2 is the individual . . . reborn as Brand You. In 50 essential points, Tom Peters shows how to be committed to your craft, choose the right projects, how to improve networking, why you need to think fun is cool, and why it's important to piss some people off. He will enable you to turn yourself into an important and distinctive commodity. In short, he will show you how to turn yourself into . . . Brand You.
