Brian Willson has undertaken risk-taking, non-violent actions in an attempt to educate and effect political change throughout his life, whether tax refusal, fasting or using one's body as an obstruction. In 1987, the world watched in horror as Willson was run over by a US government munitions train during a non-violent blocking action, but losing his legs only strengthened his resolve and empathy with the victims of US imperialism. His memoir serves as a guidebook for those who question imperialistic foreign policies and wish to explore ways to combat it.

Cover Your Tracks tells the gripping story of Margo Fletcher, eight-and-a-half months pregnant, who survives a horrible train crash and is the only one saved by former army ranger Nick Eliot. her life, a wonderful writer and a fabulous person. Devilishly funny and academically solid: delicious mixture' MAYA ANGELOU First published in 1942 at the height of her popularity, *Dust Tracks on a Road* is Zora Neale Hurston's candid, exuberant account of her rise from childhood poverty in the rural South to a prominent place among the leading artists and intellectuals of the Harlem Renaissance. As compelling as her acclaimed fiction, Hurston's literary self-portrait offers a revealing, often audacious glimpse into the life - public and private - of an extraordinary artist, anthropologist, chronicler and champion of the black experience in America. Full of the wit and wisdom of a proud, spirited woman who started off low and climbed high: 'I have been in Sorrow's kitchen and licked out all the pots. Then I have stood on the peaky mountain wrapped in rainbows with a harp and a sword in my hands.' 'One of the greatest writers of our time' TONI MORRISON

Text and drawings explain how to identify wild animals by their tracks and other signs that they leave.

The author recounts her almost two-thousand mile journey across Australia with nothing but a dog and some camels for company.
