Hepatobiliary and Pancreatic Surgery is part of the Master Techniques in Surgery Series, which presents common and advanced procedures in the major subspecialties of general surgery. The series is overseen by Josef E. Fischer, MD, editor of the classic two-volume reference Mastery of Surgery. Hepatobiliary and Pancreatic Surgery depicts surgery of the liver, hepatobiliary tree, and pancreas, including cholecystectomy and hepatic resections. Both laparoscopic and open procedures are depicted. The book is written by acknowledged master surgeons, emphasizes surgical procedures, and is lavishly illustrated with original full-color drawings. Each chapter briefly assesses indications, contraindications, and preoperative planning before fully explaining and illustrating the procedure in step-by-step detail. Outcomes, complications, and follow-up are also discussed. Each chapter ends with a brief reference list. A companion website will offer the fully searchable content of the book and procedural videos.

A substantial and transforming revision of the classic text. This edition features nearly 50% new material written by the next generation of leaders in the field of surgery. Highlights include the latest advances and techniques in transplantation, expanded coverage of surgical oncology, a completely new chapter on trauma written by the leading figure on the subject, and a state-of-the-art review of recent findings concerning systemic and metabolic response to injury. Furthermore, in keeping with the implications of managed care, the latest minimally invasive techniques for the surgical treatment and management of disease have been integrated throughout the text. Lastly, the scientific principles underlying pathophysiology and surgical intervention accompany discussion of surgical diagnosis and management.
