Originally published in 1991. The transplantation of thousands of Indian workers to South Africa under indenture between 1860 and 1911 was a political act with far-reaching consequences for their linguistic traditions. In this book, the history of one of these Indic languages, Bhojpuri, and its adaptations to its new context are traced to the point where a distinct South African Bhojpuri koine (generally known as Hindi) came into being. The roots and subsequent evolution of this language variety, as well as the events contributing to its demise, form the basis of this study. Current patterns of usage by different generations are documented in the form of traditional folk tales, proverbs, riddles and songs, alongside personal interviews. This study offers a partial history of Bhojpuri speakers, who have been otherwise largely silent in the history of colonial Natal.

The Early Grade Reading Assessment (EGRA) measures students' progress towards reading. EGRA gauges early literacy skills through a 15-minute individual oral assessment of five fundamental reading skills. RTI worked with education experts to develop the EGRA in 2006, and it has been piloted and implemented in more than 40 countries. This volume aims to take stock of the substantial amount of information and experience generated through the use of EGRA, and to share this knowledge with practitioners, policymakers, and international donors. Chapters cover not only particular applications of the instrument but also put EGRA in the context of broader issues and developments in literacy and education.
