Covering three broader issues biodiversity conservation, religious doctrine and environment the book Biodiversity Conservation Ethics in Major Religions is the result of a unique approach. It attempts to initiate scientific discourse through the fabric of religions. Spread across 15 chapters, the book covers the essence of 10 religions on biodiversity, encompassing a wide range of issues related to conservation. The book promises to be a useful resource for biodiversity students, researchers and protected area managers and also for religious scholars who are invited to look at the broader themes of religions beyond theology.
