The Gay Games is an important piece of new social history, examining one of the largest sporting, cultural and human rights events in the world. Since their inception in 1980, the Gay Games have developed into a multi-million dollar mega-event, engaging people from all continents, while the international Gay Games movement has become one of the largest and most significant international institutions for gay and lesbian people. Drawing on detailed archival research, oral history and participant observation techniques, and informed by critical feminist theory and queer theory, this book offers the first comprehensive history of the Gay Games from 1980 through to the Chicago games of 2006. It explores the significance of the Games in the context of broader currents of gay and lesbian history, and addresses a wide range of key contemporary themes within sports studies, including the cultural politics of sport, the politics of difference and identity, and the rise of sporting mega-events. This book is important reading for any serious student of international sport or gender and sexuality studies.

This edition has been extended and updated to take account of the many advances made in the field of pathology in recent years.

The NBC peacock, the PBS "everyman," the Chase Bank octagon, and hundreds of other outstanding trademarks have been created by one design firm, Chermayeff & Geismar Inc. Their logos and identity programs for high-profile corporations such as Mobil, Time Warner, Viacom, and Xerox, and for preeminent institutions such as the New York Public Library, Alvin Ailey Dance, the Smithsonian Institution, and the Museum of Modern Art, are instantly recognizable hallmarks of design. TM collects over 200 trademarks created over the 40-year history of the firm, which is led by Ivan Chermayeff, Tom Geismar, and Steff Geissbuhler. The variety and vitality of their work is reflected in this visually rich book, which serves an inspiration for designers as well as a reference to the best in trademark design.
