Kidson was born in 1929, to parents whose circumstances might at best be described as shabby-genteel, and which were already in steep decline. Although his father had served as an officer in the First World War, he was a ne'er-do-well who ended up in prison in 1931 and whose wife, to whom he had been unfaithful, left him shortly afterwards, disappearing without trace.

Move over Mr Chips. Kidson had everything that central casting requires of a legendary schoolmaster: a passion for his subject, a brilliant didactic style, a silly walk, a smelly spaniel, breath-taking rudeness, eccentric mannerisms and catchphrases, a maverick attitude towards authority, and above all, a deep empathy, loyalty and dedication towards his boys. He had an extraordinary influence on his pupils - David Cameron, the Archbishop of Canterbury, Johnnie Boden, Nicky Henderson, Sir Matthew Pinsent, 'Lupin' and Dominic West among them. This

As Kidson was an inspirational History Beak (master), history is a strong theme throughout the book and through Kidson's life story we get a vivid social history of the latter part of the twentieth century where the themes of education, culture, teaching, adolescence, discipline, mentorship, pronunciation, parenting and old age are all examined. After working in South Africa he joined the Coldstream Guards, serving in Northern Ireland, the First Gulf War, Hong Kong, the Falkland Islands, Zimbabwe and Germany. He returned to his roots in Galloway where he is now a farmer, forester, bed and breakfast and holiday cottage host, gardener and odd job man and occasional freelance journalist writing on farming and the countryside. His housemaster would be astonished to learn that he is a Deputy Lieutenant for Dumfriesshire and a member of the Queen's Bodyguard for Scotland Royal Company of Archers. He is married with two children.

in Galloway and finds a rapidly changing countryside. In a humorous and occasionally moving tale he describes how he grapples with the intricacies of farming and tells the story of founding a pack of foxhounds and a herd of pedigree beef cattle. Part childhood memoir, part biopic of rural life, readers are given an intimate portrait of an estate and transported to a remote and beautiful part of Scotland and acquainted with its wildlife, its people and its peccadilloes. Set over the first two decades of the 21st century through the referenda on Scottish Independence and BREXIT and the hunting ban, the result is a tour d'horizon of the challenges threatening a way of life and an emerging rural philosophy."--Provided by publisher.

"The first full biography of "the Darwin of Homeric Studies"--arguably the most influential classical scholar of the twentieth century--who overturned the long entrenched notions of ancient epic poetry and expanded the very idea of literature. In the early 1930s, Milman Parry introduced the hypothesis that the Iliad and the Odyssey were not "written" as we understand it, but derived from an oral tradition going back centuries. It was a revolutionary theory, but quickly accepted, and its effects are still felt in contemporary scholarship. But Parry himself has all but disappeared from view. Now, Robert Kanigel gives us a full and vivid account of his life: of his childhood in Oakland, California, in the early years of the century; his time as part of the "progressive set" at Berkeley; his marriage at twenty-one to the woman he'd gotten pregnant; their journey to Paris where he attends the Sorbonne, discovering the pleasures of the city--and the duties of fatherhood and marriage; his appointment to Harvard; and his two extended stays in Yugoslavia where he believed he could prove his theories definitively by studying the contemporary singers of long unwritten regional epics. Kanigel explores the

mystery surrounding Parry's death at 33, and describes how, in the ensuing years, what began as a way to understand the Homeric epics became the new field of "oral theory," which continues to be applied to everything from Beowulf to jazz improvisation, from the Old Testament to the latest hip-hop"--

Ben Hogan is up with Jack Nicklaus as one of the greatest golfers of all time. He equalled the record of four US Open wins, once won five out of six major tournaments in one season, and is credited with effectively defining the modern game of golf. James Dodson's magisterial biography, written by the bestselling author of Final Rounds, is the first to be authorised by Hogan's family, and reveals the complex character behind a golfer legendary for his inscrutable, steely public persona. Dodson shows how the dauntless determination that saw Hogan to four US Open victories masked a man ever haunted by a long-buried childhood tragedy, and brings out the miracle of his fightback after a catastrophic car accident to win the Masters, US Open and British Open all in 1953. Above all, he lays to rest the notion of Ben Hogan as an austere, impassive golf-machine, uncovering a jovial man with a charitable spirit and sharp business sense. Intimate, eloquent and definitive, this is the final word on one of the
