Are not al religions equally close to and equally far from God? Why, then, the Church? Gerhard Lohfink poses these questions with scholarly reliability and on the basis of his own experience of community in Does God Need the Church? In 1982 Father Lohfink wrote Wie hat Jesus Gemeinde gewollt? (translated into English asJesus and Community) to show, on the basis of the New Testament, that faith is founded in a community that distinguishes itself in clear contours from the rest of society. In that book he also described a sequence of events that moved directly from commonality to a community that was readily accessible to every group of people and was made legitimate by Jesus himself. Only later did Father Lohfink learn, within a new horizon of experience, that such a description is not the way to community. The story of the gathering of the people of God, from Abraham until today, never took place according to such a model. Today Father Lohfink states that he would not write Wie hat Jesus Gemeinde gewollt? the same way. The situation of belief and believers has undergone a shift: the question of the Church has become much more urgent. Church life is declining and the religions are returning, often in new guises. In light of these shifts and the change in his own view of community, Father Lohfink inquires in Does God Need the Church? of Israel's theology, Jesus' praxis, the experiences of the early Christian communities, and of what is appearing in the Church today. These inquiries lead to an amazing history involving God and the world - a history that God presses forward with the aid of a single people and that always turns out differently from what they think and plan. Gerhard Lohfink, ThD, was professor of New Testament exegesis at the University of Tübingen until 1986 when he resigned from his professorship in order to live and work as a theologian in the Catholic Integrierte Gemeinde and its community of priests.

The most powerful asset a church has is it` s people. People of God is a challenge to the men and women of the church. It is a challenge to believe what God says about his people still applies to the church today. It is a challenge not to settle for church as just a program. It is a challenge to return the ministry of God to the people of God. People of God lays out the theology and practice of community. Authors Spence Shelton and Trevor Joy seek to show why community is central to the Christian life, and how to practice it in the 21st century church. Whether you are a pastor or a volunteer leader, People of God aims to equip and encourage congregations as they build a culture of discipleship in the life of their church. The authors draw on experiences and learnings from their time leading two of the fastest growing congregations in America to give you principles that can apply in a church of 50 or 15,000.

The history of Catholicism is the history of Christian faith. Anthony E. Gilles traces its development—from its beginnings in hushed gatherings within the Roman Empire to its current size and influence—in an accessible and enjoyable style. A revised and updated compilation of the history volumes from his best-selling People of God series, this book will help you understand how the Church developed in relation to, or in rebellion against, the larger culture. It details centuries of crucial turning points from the development of apostolic succession to the implementation of the reforms of Vatican II. Complete with maps, timelines and special "focus" sections on important events and issues, this valuable resource belongs in the collection of every student of Church history.

Are not al religions equally close to and equally far from God? Why, then, the Church? Gerhard Lohfink poses these questions with scholarly reliability and on the basis of his own experience of community in Does God Need the Church? In 1982 Father Lohfink wrote Wie hat Jesus Gemeinde gewollt? (translated into English asJesus and Community) to show, on the basis of the New Testament, that faith is founded in a community that distinguishes itself in clear contours from the rest of society. In that book he also described a sequence of events that moved directly from commonality to a community that was readily accessible to every group of people and was made legitimate by Jesus himself. Only later did Father Lohfink learn, within a new horizon of experience, that such a description is not the way to community. The story of the gathering of the people of God, from Abraham until today, never took place according to such a model. Today Father Lohfink states that he would not write Wie hat Jesus Gemeinde gewollt? the same way. The situation of belief and believers has undergone a shift: the question of the Church has become much more urgent. Church life is declining and the religions are returning, often in new guises. In light of these shifts and the change in his own view of community, Father Lohfink inquires in Does God Need the Church? of Israel's theology, Jesus' praxis, the experiences of the early Christian communities, and of what is appearing in the Church today. These inquiries lead to an amazing history involving God and the world - a history that God presses forward with the aid of a single people and that always turns out differently from what they think and plan. Gerhard Lohfink, ThD, was professor of New Testament exegesis at the University of Tübingen until 1986 when he resigned from his professorship in order to live and work as a theologian in the Catholic Integrierte Gemeinde and its community of priests.

Since the beginning of John Paul II's papacy in 1979, the Catholic Church has been making headlines with its attempts to return Catholicism to a pre-Vatican II authoritarian church in absolute obedience to Rome. This book explores the growing progressive movement and the Vatican's attempt to squelch it.

No. 3 in the 2002 Academy of Parish Clergy Top Ten Books of the Year! Cities--the anvil of civilization, the center of power, the metaphor for society itself--have been with us for thousands of years. Here converge piety and trade, security and politics. Yet just two hundred years ago only 3 percent of the world's population lived in cities. Today half does. Despite this tremendous explosion of urban growth, the work of the church has generally lagged behind. The city presents serious challenges that cry out for answers: poverty, racism, human exploitation and government corruption. How can the church move ahead in the midst of these demands with the gospel of hope? Here, in one comprehensive volume, Harvie Conn and Manuel Ortiz, two noted scholars and proven practitioners of urban ministry, address the vital work of the church in the city. Their dual goal: to understand the city and God's work in it. Through four great waves of development, Conn and Ortiz trace the history of the city around the world. Then they tackle the critical issue of a biblical basis for urban mission. How does the Bible view the city? Are we closer to God in the country than the city? Does the Bible have an anti-urban bias? These questions are given a thorough analysis that unveils God's urban mandate as reflected in both Old and New Testaments. From this foundation the authors unpack the multifaceted nature of the city as place, as process, as center, as power, and as a place of change and stability. They move us beyond fragmented stereotypes to a new way of seeing that is holistic enough for a fully biblical ministry to develop. In addition, Conn and Ortiz lay out what the social sciences have to offer urban mission, including ethnographic and demographic studies. While showing how such studies have identified unreached cities and unreached groups within cities, they do not become captive to research but demonstrate how to keep kingdom priorities in view. Finally, Urban Ministry focuses on the essential element of leadership. While there are many books on the topic, little has been said about the particular issues and needs of urban leadership. Therefore, the authors give significant attention to developing and mentoring leaders while equipping the laity for ministry in the city. This is the essential text for bringing God's kingdom to the city through the people of God.

At a time when the Western church is having to come to terms--painfully and often reluctantly--with its diminished social and intellectual status in the world following the collapse of Christendom, we find ourselves, as interpreters of Paul, increasingly impressed by the need to relocate his writings in their historical context. That is not a coincidence. The Future of the People of God is an attempt to make sense of Paul's letter to the Romans at the intersection of these two developments. It puts forward the argument that we must first have the courage of our historical convictions and read the text before Christendom, from the limited, shortsighted perspective of an emerging community that dared to defy the gods of the ancient world. This act of imaginative, critical engagement with the text will challenge many of our assumptions about Paul's "gospel of God," but it will also put us in a position to reconstruct an identity and purpose for the people of God after Christendom that is both biblically and historically coherent

This ESBT volume addresses core questions about spiritual identity, examining the nature of the people of God from Genesis to Revelation through the lens of being created and formed in God's image. Benjamin Gladd argues that living out God's image means serving as prophets, priests, and kings, and he explains how God's people function in these roles throughout Scripture.

Many interpreters of the Fourth Gospel detect allusions to biblical texts about marriage, but none offers a comprehensive analysis of these proposed allusions or a convincing explanation for their presence. Building on the work of Richard Hays, Donald Juel and Craig Koester, in this 2006 book Jocelyn McWhirter argues that John alludes to biblical texts about marriage in order to develop

a metaphor for Jesus and how he relates to his followers. According to McWhirter, John chooses these texts because he uses a first-century exegetical convention to interpret them as messianic prophecies in light of an accepted messianic text. Specifically, he uses verbal parallels to link them to Psalm 45, a wedding song for God's anointed king. He then draws on them to portray Jesus as a bridegroom-Messiah and to depict Jesus' relationship with his followers in terms of marriage.

In recent sociological approaches to the Old Testament, Christians have been finding unexpected resources for their ethical reflection and action relative to the modern world's pressing social and economic dilemmas. This unique survey by Christopher Wright examines life in Old Testament Israel from an ethical perspective by considering how the economic facts of Israel's social structure were related to the people's religious beliefs. Observing the centrality of the family in social, economic and religious spheres of Israelite life, Wright analyzes Israel's theology of land, the rights and responsibilities of property owners, and the socioeconomic and legal status of dependent persons in ancient Israel - wives, children, and slaves - showing the mutual interaction between such laws, institutions, and customs and the nation's covenant relationship with God. While primarily exegetical, God's People in God's Land contains many useful insights for Christian social ethics: Wright suggests how the ethical application of his findings might proceed as Christians with different theological perspectives and cultural contexts seek to work out the relevance of the Old Testament for today.

This Bible study course has six lessons take from the book of Genesis.
