Astrology is an ancient practice used by our ancestors to plan their life by the stars. Over the years we have lost touch with the universe around us and the important framework it can provide us to get the most out of life. The Signswill help you to discover more about yourself by teaching you how to interpret your natal chart (the arrangement of the stars at the time of our birth). By looking at how your chart impacts each aspect of your life and contributes to overall well-being, astrology encourages us to be more aware of others and ourselves and helps to modify how we react to other people and the situations we find ourselves in. This is not a crystal ball in which to read the future but instead should be seen as a path guiding you toward greater control of your life.

In this inspiring guide to achieving happiness and wellness in life, work, and relationships, a "go-to life coach for those in the know" (InStyle) reveals how to use astrology as a roadmap to success. For thousands of years, people have looked to the night sky for guidance. Yet these days it's so easy to lose touch with the universe and the important direction it can provide. In The Signs, astrologer and life coach Carolyne Faulkner reveals how the ancient wisdom of the stars can empower you to get the most out of life. Faulkner's method is not about nebulous predictions or fate. It's about discovering the qualities, good and bad, associated with your natal chart—the position of the planets at the time of your birth—and using that knowledge to inform your decisions and relationships. Easy to use and designed as both an introduction for the cosmically curious and a deep dive for experienced spiritual seekers, this guide shows you how to interpret your chart, find balance, and reconnect with yourself. Consult The Signs to learn what to do when: • You're an inflexible Taurus, resistant to change. (Create things. Even a home-cooked meal will heal you in wondrous ways.) • You live with an argumentative Aries. (Never fight fire with fire. Wait till your partner calms down to discuss your feelings.) • You have Capricorn influence. (Shed the need to conform. Structure is important, but it needs to be flexible enough to change as we grow.)

\*\*\*\*A new constellation of astrology guru' - Vogue\*\*\* Nobody's future is written in the stars, but we can use the stars to help write our future. For thousands of years people have looked to the night sky for the answers to life's problems. Today's practice is a far cry from newspaper horoscopes and fortune-telling, but instead uses ancient wisdom of astrology to help us better understand our choices and ourselves. It's not about prescriptive descriptions of personality and fate, but about putting the individual at the centre of decision making. In The Signs, Carolyne Faulkner breaks down the jargon and offers a clear and simple explanation of how to use your birth chart (a map of the night sky at the time you were born) to take control of every aspect of your life.
