From the New York Times bestselling author, a first novel as spellbinding as her acclaimed nonfiction *At Thirty-Four*, Nick Walsh is a broken, deeply cynical man. Since the violent deaths of his parents thirteen years earlier, he has been living alone in his childhood home in the suburban Midwest, drinking, drugging, and debauching himself into oblivion. A measure of solace is provided by his newly found relationship with Monica, a mysterious woman who seems to harbor as many secrets as he does. Obsessed with understanding the circumstances surrounding his parents' deaths and deranged by his relentless sorrow, Nick begins a campaign of spying on his neighbors via hidden cameras and microphones he has covertly installed in their houses. As he observes with amusement and disbelief all the strange, sad, and terrifying things that his neighbors do to themselves and to one another, and as he, in turn, learns that he is being stalked, he begins to slowly unravel the shocking truth about how and why his parents died. At once unsettling and moving, humorous and horrifying, *Thy Neighbor* explores the nature of grief, the potential isolation of suburban life, and who we really are when we think no one is watching. What readers and critics have admired in Norah Vincent's nonfiction is completely unleashed in this vivid and provocative novel.

A powerful true story about a Muslim doctor's service to small-town America and the hope of overcoming our country's climate of hostility and fear. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY PUBLISHERS WEEKLY In 2013, Ayaz Virji left a comfortable job at an East Coast hospital and moved to a town of 1,400 in Minnesota, feeling called to address the shortage of doctors in rural America. But in 2016, this decision was tested when the reliably blue, working-class county swung for Donald Trump. Virji watched in horror as his children faced anti-Muslim remarks at school and some of his most loyal patients began questioning whether he belonged in the community. Virji wanted out. But in 2017, just as he was lining up a job in Dubai, a local pastor invited him to speak at her church and address misconceptions about what Muslims practice and believe. That invitation has grown into a well-attended lecture series that has changed hearts and minds across the state, while giving Virji a new vocation that he never would have expected. In *Love Thy Neighbor*, Virji relates this story in a gripping, unforgettable narrative that shows the human consequences of our toxic politics, the power of faith and personal conviction, and the potential for a renewal of understanding in America's heartland.

From the Spanish Inquisition to Nazi Germany to the United States today, ordinary people have often chosen to turn in their neighbors to the authorities. What motivates citizens to inform on the people next door? In *Judge Thy Neighbor*, Patrick Bergemann provides a theoretical framework for understanding the motives for denunciations in terms of institutional structures and incentives. In case studies of societies in which denunciations were widespread, Bergemann merges historical and quantitative analysis to explore individual reasons for participation. He sheds light on Jewish converts' shifting motives during the Spanish Inquisition; when and why seventeenth-century Romanov subjects fulfilled their obligation to report insults to the tsar's honor; and the widespread petty and false complaints filed by German citizens under the Third Reich, as well as present-day plea bargains, whistleblowing, and crime reporting. Bergemann finds that when authorities use coercion or positive incentives to elicit information, individuals denounce out of self-preservation or to gain rewards. However, in the absence of these incentives, denunciations are often motivated by personal resentments and grudges. In both cases, denunciations facilitate social control not because of citizen loyalty or moral outrage but through the local interests of ordinary participants. Offering an empirically and theoretically rich account of the dynamics of denunciation as well as vivid descriptions of the denounced, *Judge Thy Neighbor* is a timely and compelling analysis of the reasons people turn in their acquaintances, with relevance beyond conventionally repressive regimes.

Fresh out of a failed engagement, Olivia Hales is in dire need of a fresh start. Tired of being the charming and accommodating girl that always gets stomped on, she's determined to change her outlook on life. When she finds her dream job in a small town in California, she thinks she's finally found her place in life. That is, until she meets her new neighbor. Roman Banks. Moody. Foul-mouthed. Jerk. And the hottest man on the planet. At a sprawling six foot five, he was coldly distant and physically intimidating. Not only was her new neighbor a God that was good with his hands, he was also a grade-A jerk. Trapped on the same street, sharing the same space together, they've become entrenched in an addictive, ridiculous, never-ending game of insults and pranks that result in the destruction of two perfectly good homes. The tension between them is as thick as the walls of their houses are thin. Roman's touch burned like fire even when his words were ice, and both of them will stop at nothing to make the others life hell. In the midst of the pranks and the hate they harbor for each other, Olivia

slowly pulls back the layers of the man next door and finds herself consumed with wanting to fix him and his past. When both enemies start to catch feelings for each other, Olivia finds herself hiding her own secrets, not wanting to lose another man in her life. Lines are drawn. Strict rules put into place. But that doesn't stop Olivia from wanting to save the quiet, broody man next door. They say you're supposed to love thy neighbor, but that was the furthest emotion she felt when thinking about Roman. Hate was all there was to their relationship. At the very least, that's what she tried to tell herself. Hate Thy Neighbor is a full length Enemies-to-Lovers standalone.

At first glance, Barbara Kalish fit the stereotype of a 1950s wife and mother. Married at eighteen, Barbara lived with her husband and two daughters in a California suburb, where she was president of the Parent-Teacher Association. At a PTA training conference in San Francisco, Barbara met Pearl, another PTA president who also had two children and happened to live only a few blocks away from her. To Barbara, Pearl was "the most gorgeous woman in the world," and the two began an affair that lasted over a decade. Through interviews, diaries, memoirs, and letters, Her Neighbor's Wife traces the stories of hundreds of women, like Barbara Kalish, who struggled to balance marriage and same-sex desire in the postwar United States. In doing so, Lauren Jae Gutterman draws our attention away from the postwar landscape of urban gay bars and into the homes of married women, who tended to engage in affairs with wives and mothers they met in the context of their daily lives: through work, at church, or in their neighborhoods. In the late 1960s and 1970s, the lesbian feminist movement and the no-fault divorce revolution transformed the lives of wives who desired women. Women could now choose to divorce their husbands in order to lead openly lesbian or bisexual lives; increasingly, however, these women were confronted by hostile state discrimination, typically in legal battles over child custody. Well into the 1980s, many women remained ambivalent about divorce and resistant to labeling themselves as lesbian, therefore complicating a simple interpretation of their lives and relationship choices. By revealing the extent to which marriage has historically permitted space for wives' relationships with other women, Her Neighbor's Wife calls into question the presumed straightness of traditional American marriage.
