Guide To Automobile

Why were some countries able to build "developmental states" in the decades after World War II while others were not?

Through a richly detailed examination of India's experience,

Download File

PDF Ue Rgdp

Locked in Place

argues that the critical factor was the reaction of domestic capitalists to the state-building project. During the 1950s and 1960s, India launched an extremely ambitious and

highly regarded
program of state-
led development.
But it soon
became clear
that the Indian
state lacked the

capacity to

newly available

Sources, Vivek

Chibber mounts a forceful challenge to conventional arguments by showing that the insufficient state capacity stemmed mainly from Indian industrialists' massive campaign, in the

years after

Independence,
against a strong
developmental
state. Chibber
contrasts

India's
experience with
the success of a
similar program
of state-
building in
South Korea,
where political

in each country.

Provocative and

marked by

clarity of

prose, this book

is also the

Emphasizing the

central role of

capital in the

is an innovative work of theoretical power that will interest development specialists, political scientists, and historians of the subcontinent.
