One of the many surprises in the book is the reproduction of "Lindbergh's Own Story," a 1927 pamphlet discovered a few years ago in The Times archives. This rare document, which appeared in the newspaper 90 years ago, is about Lindbergh's historic New York to Paris flight, as told in his own words.

****Winner of the 2016 Creative Child Magazine Product of the Year Award**** Kids will love to fold and fly these sturdy, aerodynamic paper airplanes! In this brand new origami book with folding papers, paper airplane expert Andrew Dewar presents his ultimate collection of easy-to-fold, high-performance planes for kids who are fascinated by paper or origami airplanes. These planes are brightly colored and designed to fly beautifully each and every time. The book opens with a fascinating primer to the principles of flight so kids can learn about the forces that enable a plane to fly and affect the performance of their planes. They'll have fun coaxing the planes through their paces: doing loops, barrel rolls, glides and dives. The sky is the limit once they understand how planes interact with the atmosphere! This paper airplanes kit contains: 12 innovative designs 48 pre-cut paper airplane models Detailed instructions for each paper plane Special durable lightweight cardstock Printed folding lines for perfect folds Colorful and realistic designs A pull-out airport runway for landing maneuvers

From military planes to the commercial jumbo jet to space shuttles, the Big Book of Airplanes is a spectacular look at a subject that fascinates kids. Find out how farmers use planes to help manage their crops and get a look at the brightly colored planes at an airshow and find out how their designs help them pull off exciting stunts and acrobatics. Each type of plane gets its own spread and features multiple images to give kids a look inside. Captions and text on the page go into detail about how each plane operates and the different tasks it performs from the ultralight planes that are used for sport to the seaplanes that can land on water. With striking images and informative text, Big Book of Airplanes is the perfect guide for young readers who want to learn more about different aircrafts used around the world.

Vehicles, vehicles, vehicles—nearly 100 of them—in all shapes and sizes! A giant crane hovers over a construction site, a space ship roars into space. . . . Supersized spreads feature marvelously detailed illustrations that just beg to be pored over again and again. Best of all, lots of flaps, popups, pull-tabs, and rotating wheels bring the various vehicles to life. Readers will poke into a ship's hold, explore the innards of a garbage truck, and help demolish a house. Any child who's ever been intrigued by the roar of an engine will adore this extraordinary collection of things on the go, from the everyday to the nearly outrageous—yes, there's even a pooper-scooper scooter!

Filled with interactive flaps, pull-tabs, and pop-ups, this exciting exploration of flying machines, from balloons to Boeings, traces the history of flight.
